

Midwest Tube Mills, Inc.

MTR Residential

> Residential and Ornamental

Midwest Tube Mills is a leading supplier of fencing framework to the residential market. We've built our reputation on producing the highest quality pipe and tubing products available, and the same quality that goes into our MT line of industrial and commercial grade products can be found in our MTR series for residential applications.

Superior Strength - MTR is fabricated with high yield strength of 40,000 PSI- the highest grade available in residential applications.

Superior Corrosion Resistance - The MTR series uses the same advanced inline triple coat protection process as our commercial grade MT line of products. This means that we can guarantee your residential customers the highest degree of corrosion resistance available. This process includes an initial zinc bath, an intermediate conversion coat and an organic clear top coat for maximum protection. I.D. is coated prior to forming.

Wide Variety of Styles and Sizes - MTR is available in round, square and rectangular styles for a wide variety of applications.

- Round pipe and tubing is available from 16 to 18 gauge and in O.D. ranging from 1-3/8" to 2-3/8".
- Square is available from 12 to 18 gauge in sizes from 2" to 2.5".
- Rectangular is available from 12 to 18 gauge in sizes from 1" x 2" to 2" x 3".

Polyester Color Coat - The entire MTR series of MTM products is available with our exclusive polyester color coat system. Colors can be custom tailored to meet your exact specifications in compliance with ASTM standard thickness of 3 mils.

Polyolefin Heavy Mil Color Coat - produced at 10 mils minimum thickness in compliance with ASTM F 1043.

All MTR Color Coat products are manufactured to ASTM Salt Spray Test B 117, ASTM Weatherometer Test G 155 and ASTM Adhesion Test D 3359.

Made in U.S.A. - All Residential tubing product from Midwest Tube Mills is manufactured in the USA meeting Buy America(n) requirements.
