"Aluminum Elecon" by Plantation Prestige is the highest quality, concealed fastener aluminum panel on the market today. With 24" of rack on a 6' wide panel, these panels can handle even the roughest grade changes. With patented concealed fastener technology, these panels snap into the posts and have a seamless appearance on both sides of the fence. With fully welded matching gates, the options are endless with Aluminum Elecon by Plantation Prestige!

Plantation Prestige is proud to offer our "Steel Elecon" series of ornamental fencing products. These steel ornamental panels have no exposed fasteners, and connect to posts or columns with universal brackets or wall mount brackets. These steel ornamental panels rack up to 20" for grade changes and uneven terrains. With an 8-stage cleansing and powder coating process, Steel Elecon will provide years of beauty and security for your property!
